Full Stack Developer (Java — .NET — React)

Summary

Innovative and results-driven **Software Engineer** with expertise in building scalable enterprise applications. Proficient in **Java (Spring Boot)**, **.NET**, and **React.js**. Strong background in **Microservices architecture**, **RESTful APIs**, and database optimization using **SQL Server (SSMS)** and **MySQL**. Committed to clean code practices and agile delivery.

Technical Skills

Languages: Java (Core & Advanced), C#, SQL, JavaScript (ES6+)
Frameworks: Spring Boot, .NET Core, .NET Framework, React.js, Hibernate, Spring Data JPA
Databases: SQL Server (SSMS), MySQL, MongoDB
Tools: Git, GitHub, Maven, Postman, IntelliJ IDEA, Visual Studio, VS Code
Concepts: Microservices, REST APIs, OOP, MVC, Multithreading, Clean Code, Agile

Professional Experience

Software Engineer <i>NetFrame Software India Pvt. Ltd.</i>	Oct 2025 – Present <i>Bhopal, India</i>
– Developing and maintaining enterprise web applications using .NET Core and React.js. – Building scalable RESTful APIs and backend services to support high-traffic modules. – Designing responsive frontend components in React.js for an improved user experience. – Optimizing SQL Server queries and database performance for large datasets. – Following Clean Code practices and managing version control using Git in an Agile environment.	

Key Projects

Hotel Management System | *Spring Boot, MongoDB, Microservices*

- Developed a scalable backend using **Microservices architecture** and **Spring Boot**.
- Implemented **Eureka Server** for service discovery and **API Gateway** for request routing.
- Used **Feign Client** for seamless communication between independent services.

Payroll Management System | *Java, Spring Data JPA, MySQL*

- Built secure **REST APIs** for payroll processing with automated reporting features.
- Implemented comprehensive **authentication and validation** for data security.
- Optimized database interactions using **Spring Data JPA** and custom MySQL queries.

Education

Master of Computer Applications (MCA) <i>University Institute of Technology (UIT), Bhopal</i>	2023 – 2025 <i>CGPA: 7.20</i>
Bachelor of Computer Applications (BCA) <i>St. Paul's College, Ranchi</i>	2019 – 2022 <i>CGPA: 9.04</i>
